## SKILLS

- Flutter
- React/React Native
- NodeJS - ExpressJS
- MongoDB - MS/MYSQL
- Provider/Redux/Bloc
- Firebase Utility

## WORK EXPERIENCE

### ❖ TELLME - Flutter Mobile Developer (Mar 2022 - Apr 2024)

Tellme is a robust business communication platform. It provides a federated communication infrastructure, allowing seamless communication across different platforms and networks. The platform offers cross-platform applications developed using Flutter and Dart, ensuring a consistent user experience across various devices and operating systems.

- Streams - Streams Builders
- Firebase Notifications
- Build apps and deploy Google Play and App Store
- State management ( Custom tools ) - Provider
- Git - CI/CD tools ( Fastlane etc. )
- Docker and Kubernetes
- Keycloak (OpenSource identity and access management tool)
- Junior and intern team leadership

### ❖ Avantajlı TOG Genç Kart Mobil app( Oct 2023 - )

This mobile application for TOG. It was made for the use of TOG's volunteers and administrators. This app has 2 parts. First parts for volunteers. The part where volunteers can control activities, see discounts and take attendance. Second part for administrators. It can manage volunteers, control all activities, send notifications and create the necessary QR information so that it can be used where it is needed.

- Node JS - Express.js
- MongoDB
- Flutter
- Streams - Streams Builders
- Firebase Notifications
- Firebase Storage
- State management - Provider
- Git - CI/CD tools ( Fastlane etc. )

Google Play: [Link](#)

### ❖ Onboarding App for Alberen ( Aug 2023 - Sep 2023 )

This mobile application for taxi POS register onboarding app. It is simply an application made to obtain the correct information required for taxi drivers to purchase a POS device.

- Node JS - Express.js
- MongoDB
- Flutter
- State management - Provider

#### ❖ **Taxidata takip for Alberen ( Dec 2023 - )**

This mobile application is designed for taxi owners, allowing them to view reports for their owned taxis within specified date ranges. The application enables the calculation of the revenue generated by multiple taxis during the selected periods. Additionally, it provides real-time tracking of the taxi's current location.

- Flutter
- Streams - Streams Builders
- Cloud Functions
- Firebase Authentication ( Phone )
- Firebase Firestore Database
- State management - Provider
- Git - CI/CD tools ( Fastlane etc. )

#### ❖ **FOODBAKS - Full Stack Developer (Jan 2020 - Nov 2021)**
